Course Description

This class will examine environmental factors that affect human health through the use of popular film and visual media. We will explore how scientific issues related to health and the environment are embedded in a cultural matrix that involves ethical, legal and social concerns. We will evaluate how science and scientific information are portrayed in these films, and how the perspective of filmmakers and documentarians can influence the public's interpretation of environmental health issues. In an **active learning** format, we will discuss questions such as: What real-world events prompted the making of the film? What scientific issues are central to the film? What has happened since the film was made? How did the film affect our society's thinking about environmental health hazards?

Learning Objectives

1. Describe how cultural and economic differences can affect human health.
2. List the routes of human exposure to environmental pollution.
3. Describe how pollutant properties determine their fate in the environment.
4. Recognize bias in a film-makers perspective and contrast their perspective with evidence from the opposing argument.
5. Identify key diseases responsible for mortality globally and associate them with environmental health problems or specific pollutants.
6. Outline the US regulatory framework that protects the public from exposure to environmental pollution and occupational hazards.
7. Explain how scientific evidence is used in legal disputes related to environmental contamination.
8. Describe the role of the media in the presentation of environmental health risks.

Why Active Learning? Why Group Work?

This course is offered in an Active Learning Classroom (ALC 136) which includes 10 round tables each with 9 movable chairs to encourage group work and collaboration. Each of the tables is equipped with microphones, call buttons, a large monitor and plug-ins for 3 laptops. These facilities make active learning and group work more feasible. Educational research shows that active learning is more effective than the traditional lecture format because it...

- creates an inclusive classroom for students
- increases student participation
- increases critical thinking, knowledge retention and integration
- allows students to take ownership for their own learning
- increases student contact with the instructor

Student Roles for Group Work

Students will sit at **10 Tables of up to 9 students** and work on **Discussion Questions** as a group. Each student will rotate through the roles as we move through the course, so that each student will have the opportunity to play each role at least twice. A schedule of assigned roles can be found on the Canvas site Modules page. The perspective of each role is defined here through key questions and tasks:

- **Film Critic (2 groups)**
 - What real-world events prompted the making of the film?
 - Review the history of the environmental health theme in the film
 - Discuss the ability of the writers/directors/actors to communicate the issues effectively
- **Scientist (2 groups)**
 - What scientific issues are central to the film?
 - Explain the science behind the film and distinguish between fact and fiction
- **Media Correspondent (2 groups)**
 - What has happened since the film was made?
 - Discuss the media's response to the environmental health issues in the film
- **Audience (4 groups)**
 - How did the film affect our society's thinking about environmental health hazards?
 - Provide feedback from the general public and address ethical issues

Student Responsibilities

Prior to class

1. Read the **Discussion Question** assigned to your group and keep it in mind as you...
2. Watch the assigned **Film** listed in the **Schedule** above (see **Viewing Films**)
3. Read the assigned **Article**
4. Take the **Pre-Class Quiz** based on the **Article**

5. If you have one of the **Starring Roles (Film Critic, Scientist or Media Correspondent)**, find 1 reference (source) to address the **Discussion Question**, summarize it in 3 bullet points, and submit them on Canvas by 1:00pm on Tuesday, in preparation for class discussion. To make sure that there are no duplicate sources at your table, post your source on your group discussion page beforehand. You will only receive credit for unique sources.

1. If you have one of the **Starring Roles (Film Critic, Scientist or Media Correspondent)**,
 1. Each person verbally summarizes their answer the assigned **Discussion Question**

 3. Organize a 4 minute PowerPoint presentation (or other format designated by instructor) to address the **Discussion Question** with input from your group members
 4. Submit the PowerPoint presentation via Canvas during class
2. If you are in an **Audience** group,
 1. You will be assigned one discussion question at the beginning of the class session. Spend 5-10 minutes individually to write down your response to the question, and then discuss your answers as a group.
 2. Choose one person as Recorder to compile a list of 3 bullet points or follow-up questions, and submit the bulleted list (with sources if used) via Canvas during class.
 3. Ask questions following each presentation.

After class

 1. Write a **Short Essay** (300-500 words, 12 point font, 1.5 spacing) addressing the **Discussion Question**
 2. Include a **Bibliography** for your 1-3 references and cite them. *Always* include a web address if the reference was accessed online. Use pages 9-10 as guidance to find and cite credible sources. You will get some feedback on the credibility of your sources when you submit the bulleted list responding to your discussion question.

Typical Class Session

Prior to class, students are required to watch a film, read article(s), and complete a pre-class quiz

1:30-1:45pm Instructor-led class discussion of the film and a Quiz on film content administered with Clickers (15 min).

1:45-2:10pm Groups will each address one of 6 **Discussion Questions** and generate a PowerPoint presentation (or flowchart drawn on white board writing surface, as designated by instructor) summarizing their discussion. Each group will press their call button when they have finished preparing their presentation (25 min).

2:10-2:50pm Groups will take turns giving 4 minute presentations to the entire class and responding to questions from the Audience groups. The presentation can include a one minute video clip from film or other source, but not required (40 min).

2:50-3:15pm Instructors will present overview of the environmental health themes in the film and provide feedback on presentations and class discussions (25 min)

3:15-3:20pm Students have a chance to submit assignments on Canvas and discuss plans for next week's questions and presentation.

Viewing Films

Hard copies of the films are available on course reserve in the Suzzallo/Allen Media Center <http://www.lib.washington.edu/media/> (<http://www.lib.washington.edu/media/>). Students can check out one film at a time for 4 hours. The films are library use only. The Media Center recently opened a new space called the mediArcade that has viewing stations where up to 8 people can view a film at a time. Additional information [here](http://www.lib.washington.edu/media/mediarcade) (<http://www.lib.washington.edu/media/mediarcade>). They also have individual viewing stations outside the Media Center Desk.

Alternatively, students may rent the films at their own expense using the following links:

Attendance and Class Participation

Students are expected to attend all classes. We will grade class participation with clickers. We will use poll everywhere for clicker questions. All classes will have clicker questions. Scores will be based partly on participation, partly for correct answers. It is your responsibility to make sure your poll everywhere is working; check your clicker scores on canvas regularly.

Absence Policy

While attendance at all discussion sessions is required, we understand that extenuating circumstances may arise. Valid excuses for missing class include a) participation in an official school activity (e.g., athletic event) or b) illness with valid doctor's note. All other situations will be handled on a case-by-case basis. If the absence is planned, a written notice (via email) must be submitted to the instructors no less than one week prior to the discussion session (earlier is better). If the absence is unforeseen, a written explanation must be submitted within one week of returning to school.

Late Assignment Policy

We expect that all assignments be turned in by the deadline indicated on the course website. If an assignment is turned in late, it is subject to a 10% per day grade reduction (e.g., the score on a 3-day-late assignment will be reduced by 30%). If the assignment is late due to an unforeseen emergency, an explanation is required in writing (via email), and will be considered on a case-by-case basis.

Access and Accommodations

Your experience in this class is important to me. If you have already established accommodations with Disability Resources for Students (DRS), please communicate your approved accommodations to me at your earliest convenience so we can discuss your needs in this course.

If you have not yet established services through DRS, but have a temporary health condition or permanent disability that requires accommodations (conditions include but not limited to; mental health, attention-related, learning, vision, hearing, physical or health impacts), you are welcome to contact DRS at 206-543-8924 or uwdrs@uw.edu (<mailto:uwdrs@uw.edu>) or [disability.uw.edu](http://depts.washington.edu/uwdrs/). (<http://depts.washington.edu/uwdrs/>) DRS offers resources and coordinates reasonable accommodations for students with disabilities and/or temporary health conditions. Reasonable accommodations are established through an interactive process between you, your instructor(s) and DRS. It is the policy and practice of the University of Washington to create inclusive and accessible learning environments consistent with federal and state law.

Academic Integrity

Students at the University of Washington (UW) are expected to maintain the highest standards of academic conduct, professional honesty, and personal integrity.

The UW School of Public Health (SPH) is committed to upholding standards of academic integrity consistent with the academic and professional communities of which it is a part. **Plagiarism**, cheating, and other misconduct are serious violations of the University of Washington Student Conduct Code (WAC 478-120). We expect you to know and follow the university's policies on cheating and plagiarism, and the SPH Academic Integrity Policy. Any suspected cases of academic misconduct will be handled according to University of Washington regulations. In addition to earning a grade of zero on the assignment or exam, all cases will be referred to the University Disciplinary Committee. For more information, see the University of Washington Community Standards and Student Conduct website.

Students are expected to reference all work and give appropriate attribution for all materials cited, including any reference to websites or articles. More info at: <http://depts.washington.edu/grading/conduct/index.html> (<http://depts.washington.edu/grading/conduct/index.html>). In addition, we recommend the following online tools to help you avoid plagiarism:

1. **VeriCite** is activated on all of your writing assignments. This is a web-based system that allows student papers to be submitted and checked for plagiarism. After you submit your assignment, click "Submission Details", and you can view the score in percentage (it may take a little while for the VeriCite score to display). Please use this tool and resubmit your assignment if you are not happy with the VeriCite score. We will scrutinize scores with >30% similarity to online sources.
2. Watch "Getting Real About Plagiarism," the 7-part video by Assistant Professor of English, Leisha Stolt, at Ivy Tech Community College, available at https://www.youtube.com/watch?v=m0GJ_bErmRc (https://www.youtube.com/watch?v=m0GJ_bErmRc%20)

Diversity and Inclusion

The UW School of Public Health seeks to ensure all students are fully included in each course. We strive to create an environment that reflects community and mutual caring. Diverse backgrounds, embodiments, and experiences are essential to the critical thinking endeavor at the heart of university education.

Therefore, I expect you to follow the UW Student Conduct Code in your interactions with your colleagues and me in this course by respecting the many social and cultural differences among us, which may include, but are not limited to: age, cultural background, disability, ethnicity, family status, gender identity and presentation, citizenship and immigration status, national origin, race, religious and political beliefs, sex, sexual orientation, socioeconomic status, and veteran status. Please talk with me right away if you experience disrespect in this class, and I will work to address it in an educational manner. DCinfo@uw.edu [\(mailto:DCinfo@uw.edu\)](mailto:DCinfo@uw.edu) is a resource for students with classroom climate concerns.

The Ins and Outs of Research and Citations:
A quick guide to references in a paper

STEP ONE: Where to start

1. Visit databases
 - Scientist: [UW Library](#), [Web of Science](#), [PubMed](#), [GoogleScholar](#)
 - *Film Critic*: [Google](#), [Metacritic](#), [UW Library](#)
 - *Media*: [UW Library](#), [Google](#)
2. Use articles found in these data bases to find your 1 or more sources required.
NOTE: Wikipedia is not considered a quality source. Please feel free to use it to find other articles (found at the bottom of the page) to use. Be aware that some of the articles found on Wikipedia are not good sources either.

DATABASES ARE NOT SOURCES!
THEY ARE SITES USED TO FIND
CREDIBLE PRIMARY REFERENCES

STEP TWO: In-text citations

1. Identify when you need to use an in-text citation
 - Direct quotes
 - Paraphrased ideas
 - References to sources
2. Cite source as following at the end of the thought, before punctuation:
(AUTHOR, YEAR)

STEP THREE: Bibliography

1. Choose Your style: MLA, APA, Chicago, etc.
2. Make sure ALL sources have the following information:
 - Authors
 - Date of Publication
 - Title of Article/Webpage
 - Publisher/Sponsor
 - URL of Webpage
3. Visit bibliography websites to confirm or help cite
 - **[UW Library](#)
 - [Purdue Owl](#)
 - [Endnote](#)
 - [Zotero](#)

CITATION EXAMPLES

Feel free to use any of these styles, or another, as long as you have proper citation!

You can also number your sources and use the numbers for in text citations.
