

## **#TeenWorkSafe DEOHS MA/AF Initiative Proposal**

Lead Investigator: Nancy Simcox

Project Period: November 1, 2014 – June 30, 2015

Award Amount: \$7,000

### **Abstract**

The UW Health and Safety Awareness for Working Teens (HSAWT) website had been hosted by a private third-party contractor. The primary goals of this project were to relocate the hosting of the website to the DEOHS server and to update the existing materials to have broader appeal to the target population. All of the content from the original website was successfully migrated to CE's Drupal-based website on a DEOHS server. Site content was edited to reflect more current statistics and information. Visitors to the original URL are redirected to the HSAWT homepage on the DEOHS CE website, <https://osha.washington.edu/pages/hswat-home>.
