

PACIFIC NORTHWEST AGRICULTURAL SAFETY & HEALTH CENTER

research for healthy workers, strong communities & productive agriculture

FARMING

Agriculture workers are 7 times more likely to die on the job.

FISHING

Fishing workers are 29 times more likely to die on the job.

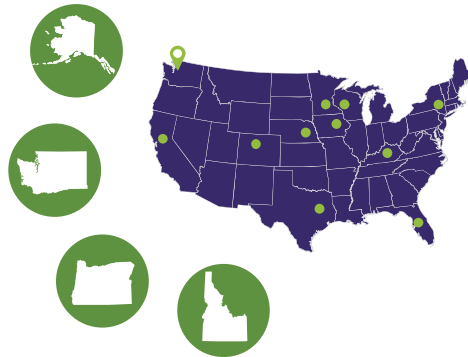

FORESTRY

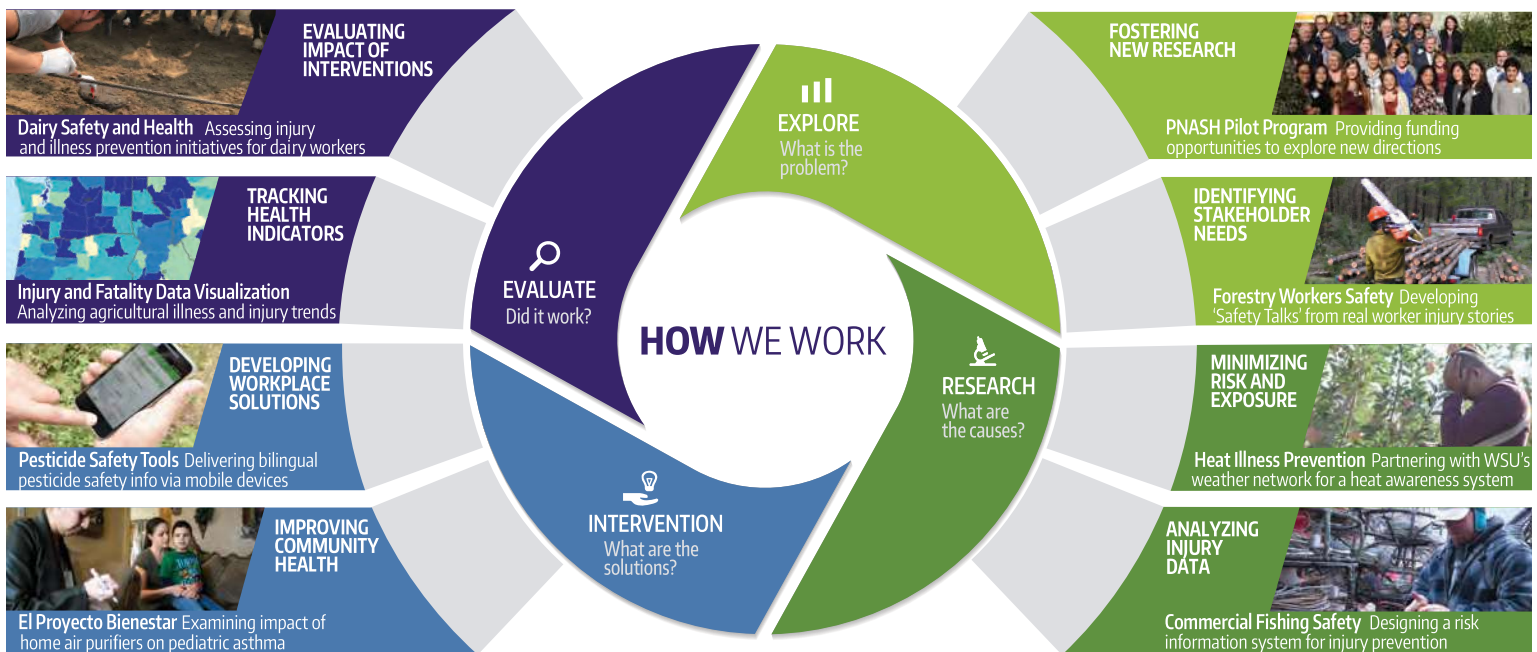

Forestry workers are 24 times more likely to die on the job.

PROMOTING SAFE WORKPLACES

Pacific Northwest Agricultural Safety and Health Center (PNASH) is part of a national network of NIOSH-CDC funded Agricultural Safety and Health Centers. We conduct research and promote best health and safety practices for Northwest (AK, WA, ID, OR) producers and workers in farming, fishing, and forestry.

PARTNERING WITH WORKERS, EMPLOYERS & COMMUNITIES
