

# Job Opportunity

## Research Industrial Hygienist

### Join our Miner Health team!

The **National Institute for Occupational Safety and Health (NIOSH)** has an exciting fellowship opportunity for a research industrial hygienist in the Miner Health Branch of the Spokane Mining Research Division. The industrial hygienist will join the multidisciplinary Exposure Monitoring and Control (EMC) Team.

We are seeking an engaged scientist to develop and test novel approaches to evaluating exposures and control strategies in the mining environment. Applicants must have:

- At least a master's degree from a recognized college or university.
- Academic and/or work experience in exposure assessment and/or industrial hygiene.

Appointees under this fellowship program are eligible for retirement, health benefits and life insurance programs, annual and sick leave, incentive awards, and training in accordance with OPM eligibility requirements. The position is located on-site in Spokane, Washington, with the opportunity for telework consistent with CDC/NIOSH policies.

### What We Do

NIOSH's mission, as part of the Centers for Disease Control and Prevention (CDC), is to develop new knowledge in the field of occupational safety and health and to transfer that knowledge into practice. A career at NIOSH means joining one of the best places to work as a public servant, protecting the lives and health of all workers.

At NIOSH, our workforce is as diverse as the population we serve. We have a world-class team of talented experts from many different fields and backgrounds who share a common passion for occupational health and safety. It's this diversity of thought and inclusivity that fosters ingenuity, collaboration of ideas, and partnership.

### Spokane Mining Research Division

The Spokane Mining Research Division is one of two divisions that conduct miner safety and health research at NIOSH. Located in beautiful Spokane, Washington, we operate a state-of-the-art facility in a growing city that offers a well-balanced lifestyle with many outdoor activities, cultural events, and high-quality schools! Check out more [information](#) about the Spokane Mining Research Division. Interested applicants should send their CV to Kendra Broadwater ([KBroadwater@cdc.gov](mailto:KBroadwater@cdc.gov)).
